Rev. Pres. Falconer.

Dear Sir.

I am inclosing a letter which explains itself. If you think with us that the present is a favorable time to press this matter. I am sure that a very big letter on your part would have much weight. That is why we are letting you know what we are doing. We count you as our ally.

Yours sincerely.

Amos Rees.

Mrs. Ross,

Annette, California.

Dear Mrs. Ross:

It does not seem to me that this is an opportune time to urge again upon the Government the granting of permission to the Hindus to bring their wives into Canada. Perhaps after the war is over the whole question may again be trought up.

I have already strongly urged my views upon the Government, and on the Premier himself, and at this time I cannot undertake to do anything further.

Yours sincerely,

President.
